Reasons for Allowance

In the previous Office Action mailed June 15, 2005, Examiner rejected claims 1-7, 14-32, 35-55, and 58-67 and objected to claims 8-13, 33-34 and 56-57. Also, Examiner indicated allowable subject matter regarding claims 8-13, 33-34 and 56-57. Upon further consideration of the amended claims and Applicant's arguments, Examiner considers the arguments persuasive. Examiner agrees with Applicant arguments that features of the claimed invention are patentably distinct over the cited prior art. Therefore, claims 1-67 are allowed. The following is an examiner's statement of reasons for allowance:

The prior arts of record do not teach a TCAM partitioned into a first partition with a highest priority and a second partition with a lowest priority, loading first flow TCAM entries into a first partition in a predetermined order, and loading a second flow TCAM entries into the second partition in a predetermined order. Examiner asserts that Ramankutty discloses a partitioned TCAM that is arranged into partitions based on predetermined address prefix lengths, but does not consider the flow classification of information packets. Examiner considers the Applicant's claims independent claims 1, 24, 25, 26, 49, 51 and 51 allowable over the prior arts based on the claim interpretation and the aforesaid prior arts of record. It is with similar reasoning that subsequent dependent claims 2-23, 27-48, and 52-67 are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
